

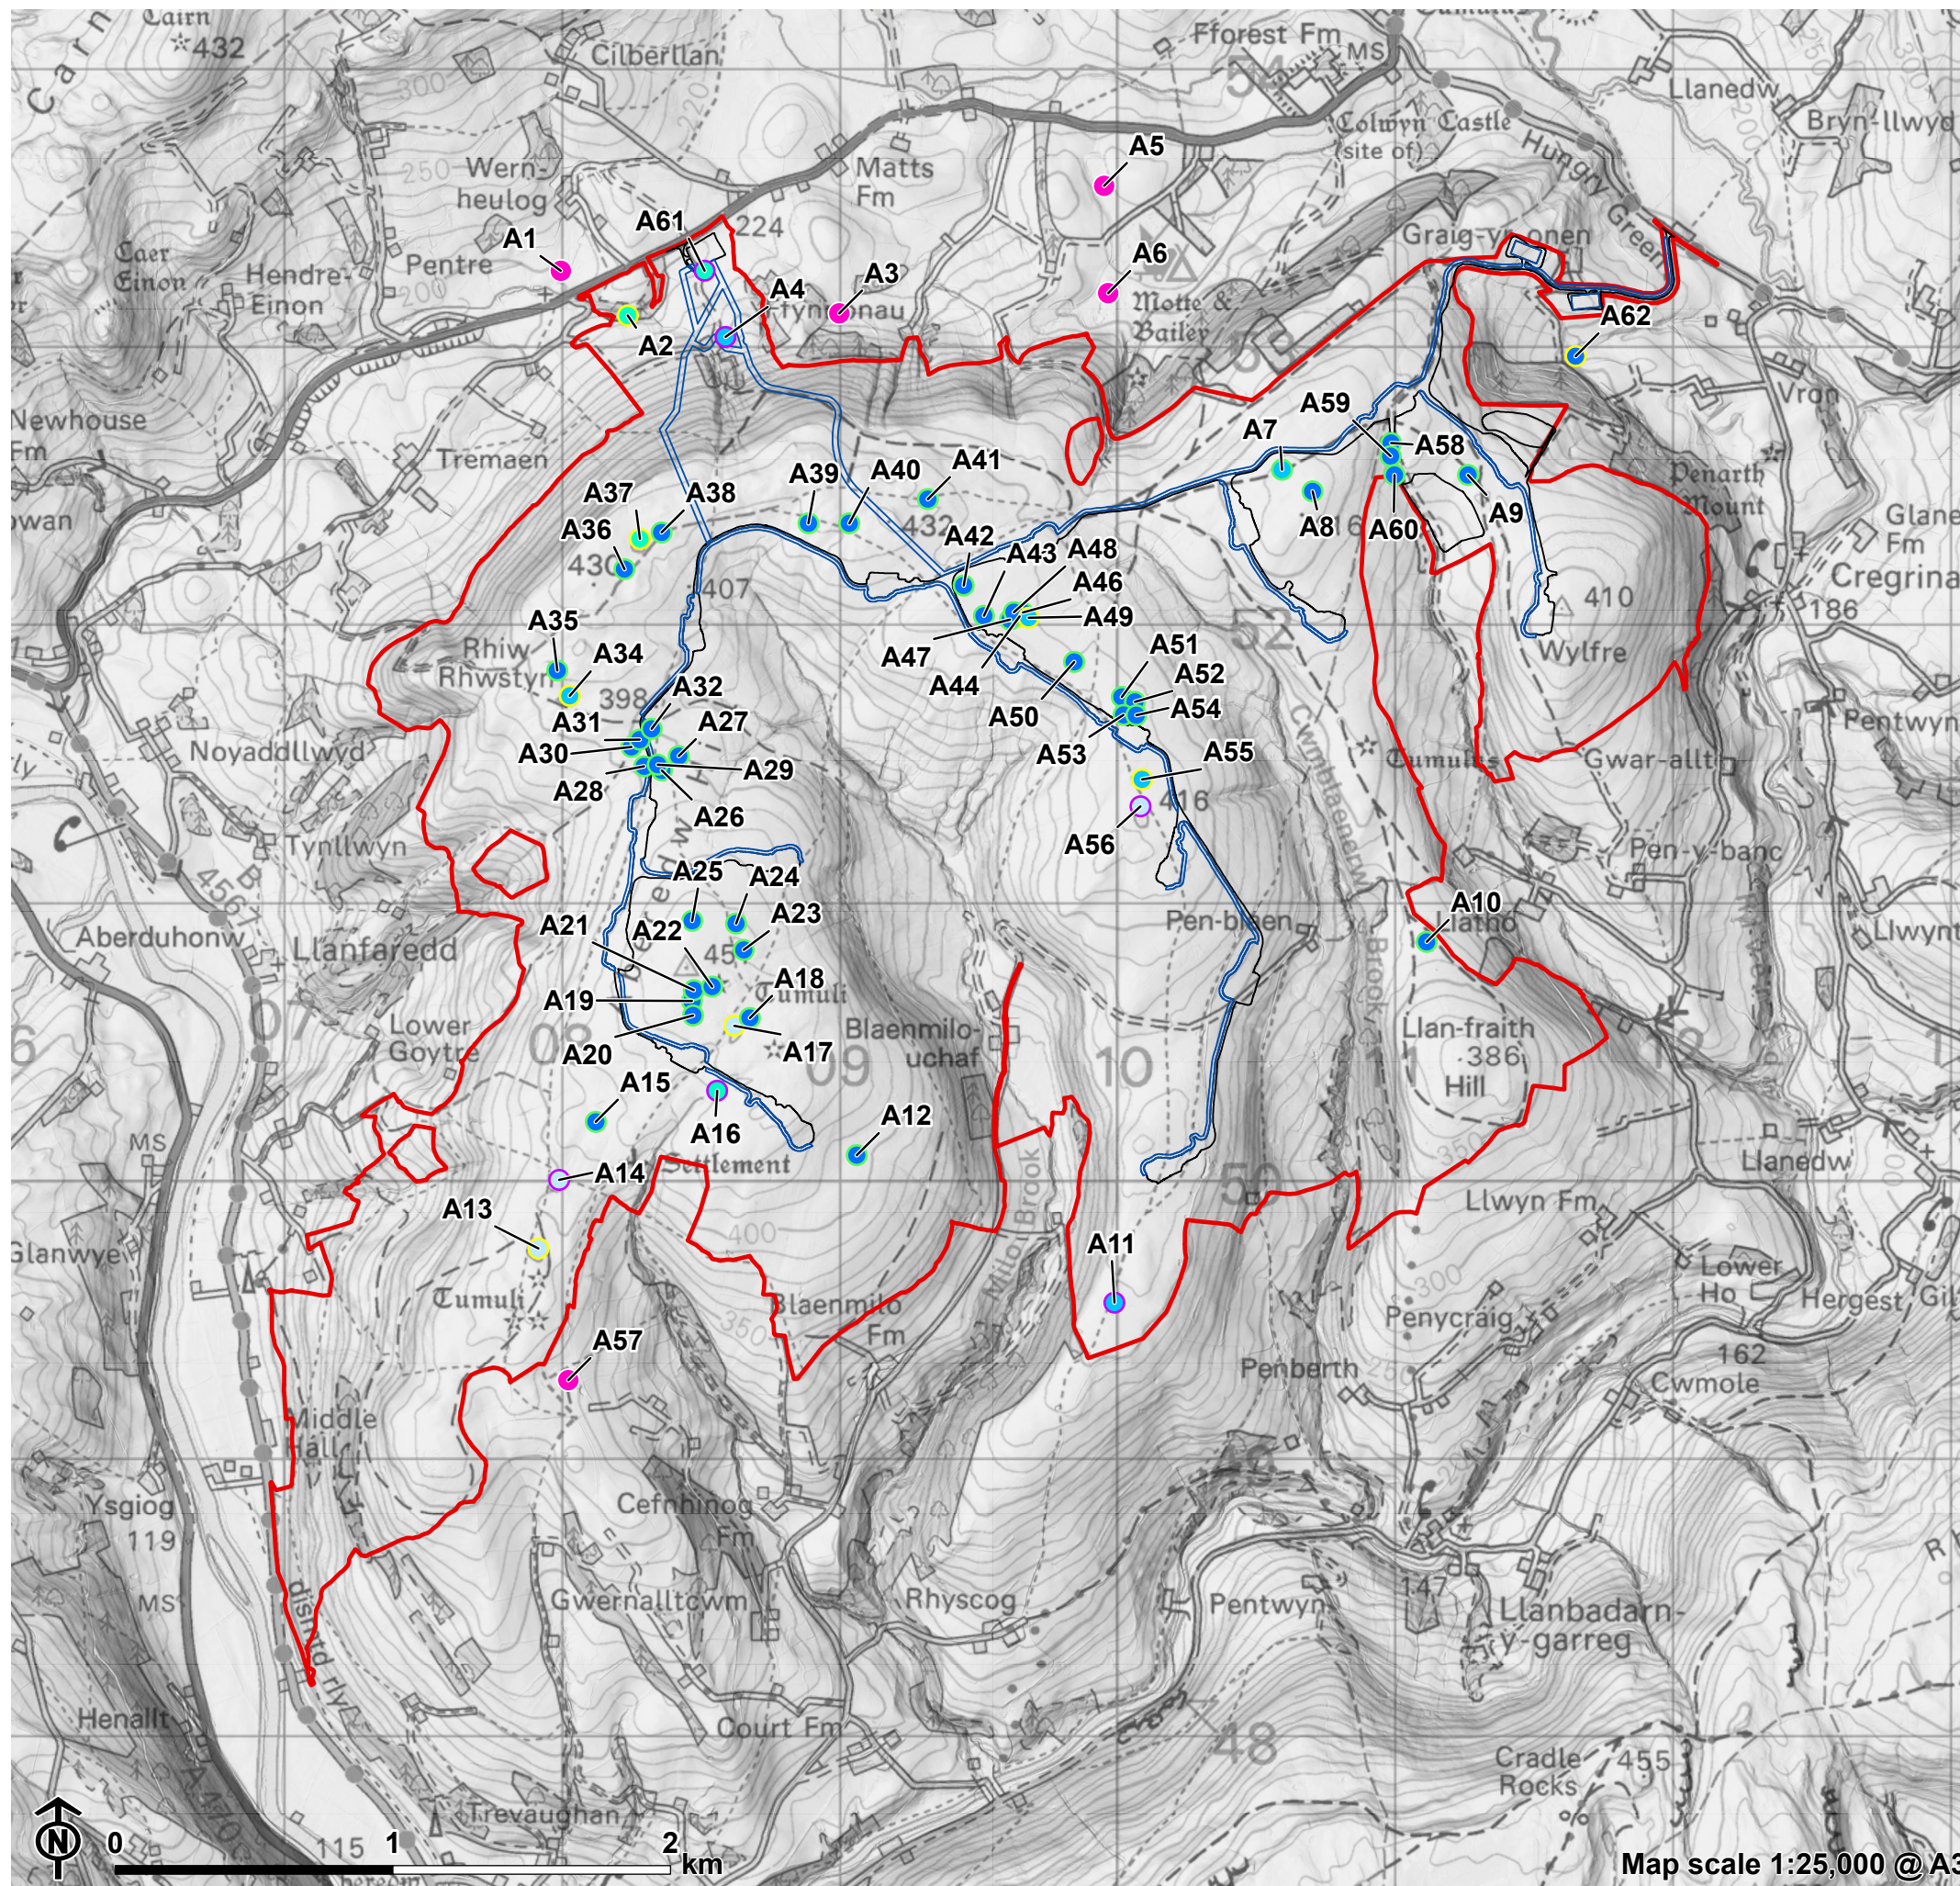

Figure 7.4: Pond Locations and Great Crested Newt (GCN) Results

- Application boundary
- Infrastructure footprint (temporary loss)
- Infrastructure footprint (permanent loss)
- Unserved pond

eDNA status

- Absent
- Present
- Not sampled

HSI result

- Average
- Below average
- Good
- Poor

GCN population class (Surveyed for A7 and A16 only)

- A4 - Small - to be confirmed
- A7 - Small
- A16 - Small
- A61 - Small - to be confirmed
